About us

Wilson Field is an independent, market-leading firm specialising in business support, finance and turnaround. We can find the best possible solution for your clients' business cash flow problems.

Since 2001 Wilson Field has expanded to become one of the largest firms of independent insolvency practitioners. Staff numbers have increased significantly as the business has expanded. The Wilson Field Head Office is situated in Sheffield, however our nationwide network means that distance is never an issue.

All of our Insolvency Practitioners are regulated and licensed to provide corporate and personal insolvency services.

An additional service to your clients at no cost to you

– *Dynamic support for Accountants & Bookkeepers*

Clients often turn to their accountants for advice on diverse issues such as cash flow problems and creditor pressure (both personal and business), problems with the bank and arranging finance. Other issues could include:

- Asking about the implications of entering an IVA or going bankrupt
- Concern about the implications of 'trading whilst insolvent' if they run a limited company
- The threat of legal action or bailiffs because of overdue accounts.
- Anxiety over tax arrears & Time to Pay arrangements
- Worry about the implications of having signed a personal guarantee
- A request for commercial finance

These are all areas which can be very time consuming and distract you from your core business

Our promise to you...

- We are **NOT** competing for your business. We do not undertake taxation work, audits or any of the other 'regular' accountancy services, and never will.
- We will meet with your clients, at a location and time to suit them, free of charge. You can be as involved in the advice process as you would like to be. Should a formal procedure be required, our fees will be agreed with your client upfront. We will keep you informed.
- It is our policy to refer any related work, such as the preparation of the Statement of Affairs, cash flow forecasts and employee returns, directly back to you at a commercial rate. We may also have the opportunity to refer tax work such as terminal loss claims to you.
- Wilson Field restructure a significant number of businesses each year. A number of these businesses will inevitably require new accountants and wherever we can we will refer clients to you.

Benefit to you...

We can:

- Save you time leaving you free to focus on your core business
- Find the right solution for your client
- Pay you a commercial rate for any associated work, for example collating financial information or assisting with tax computations
- Enhance the range of services available to your clients at no cost to you

Benefit to your client...

We can help if you have clients who are....

- Experiencing cash flow problems
- Dealing with a less-than-accommodating bank
- Concerned about bailiffs, arrears with landlords, suppliers or tax / VAT or worried about losing their home or even going bankrupt
